Subject: Greetings from Lowe's India

Importance: High

Dear Mr. Gurucharan Singh,

We pride ourselves as an organization which continually evolves and invests in world-class talent to remain a market leader.

Lowe's has always placed immense importance in partnering with universities and campuses to diversify the talent pool it invests in. In this regard, we thank you for your interest in choosing to become our strategic partner. We have seen your students lead exceptional organizations and make a difference to the community.

As we grow in India, we would like such talent to be a part of our winning team, and we invite you to be a part of our extended Lowe's family.

We had discussed different ideas like the **Full semester Internship, Campus Ambassadors** etc. during your visit to our office and would surely consider them in our Hiring strategy. We are certain that these initiatives will strengthen our collaboration and will help us in selecting good talent.

We are excited about this partnership with your esteemed institution and are certain that you will find it rewarding too.

I will be your point of contact for this strategic partnership and
